No. 2

Hi folks,

After one and half year break we are finally back with «It Burns issue no. 2.» We are really sorry for letting you hang that long but we had to sort out many problemz. However we sticked to the concept of issue one and show you lots of fresh trains, freights and walls from all over the world :

Table of contents

Page 4 - 9 is dedicated to the canadian scene: There are two major freight bombin crews in Canada (Kwota & A Few Chosen) who keep the movement alive. Other crews like TDV (Toronto),AA and BA (Vancouver) are known for amazing productions. The only Graff zine is called 3rd Degree which appears about twice a year (worth to check it out). Subway trains hardly get painted because of high security in the yards. At this point we want to thank all the writers who supported us during our trip.

Page 10 Consist of Freight action from the 3A Crew (Boston). This crew only exists since a few years but is allready on a high standard. Some of their wall productions are also displayed on the USA page.

Page 11 - 15 On these pages we feature some nice European train hits. Kick back and enjoy.

Page 16 - 19 Swiss Walls with new work of TZP, TWS, GTK, BZ and many more.
